MP Series Field Monitoring Packages

The MP Series of Field Monitoring Packages are combinations of AR Field Monitors and Field Probe Kits. Each package contains all the necessary equipment to make Field measurements. The Field Monitor and Laser Probe Interface(s) are housed in a single 19" wide instrument case. The instrument case height is determined by the number of Field Monitors and Field Probes selected. Please refer to the table below for details. A 20 meter fiber optic extension cable set, fiber optic mating adapter set, mini tripod, carrying case and ISO17025 accredited calibration report is supplied for each field probe in the package.

The export classification for this equipment is EAR99. These commodities, technology or software are controlled for export in accordance with the U.S. Export Administration Regulations. Diversion contrary to U.S. law is prohibited.
